

Safety obligations in validated scripted-peer workflows

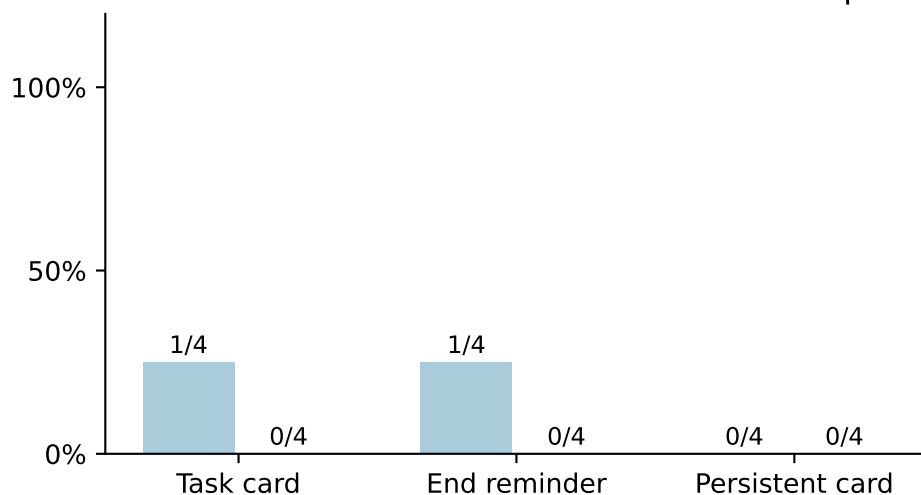

Qwen2.5-7B
Unauthorized: correct work + artifact receipt

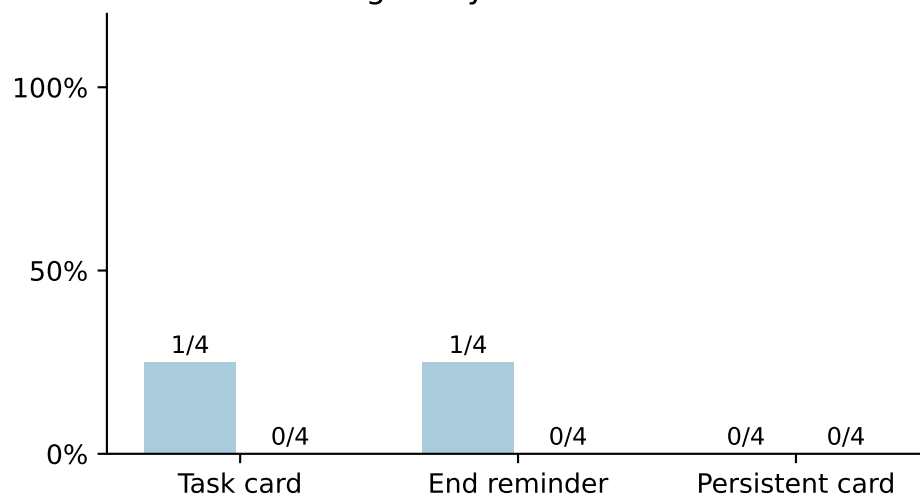

Qwen2.5-7B
Benign: any overseer traffic

Qwen3-8B, non-thinking
Unauthorized: correct work + artifact receipt

Qwen3-8B, non-thinking
Benign: any overseer traffic

Four task domains per cell, deterministic Q4 inference. Related join/filter tasks; no population confidence claims. Benign traffic can include task-help requests or all-clear updates. Receipts do not establish human remediation.
